

## VI. RESULTS: SURVEY RESPONSES

A copy of the survey is included in this report (pages 3-6) and should be referred to for exact question wording when analyzing the following results. Not all respondents answered all questions and some questions elicited multiple answers.

### A. Midwest Assistance Program /ACTIVE Cities Environmental Survey

1. Rate the following environmental issues using 1 = not a problem in Brandon at this time; 2 = not a problem in Brandon at this time but likely to be one in the future; 3 = is a problem in Brandon.

## VII. SUMMARY AND COMMENTS

A recurring theme in the survey was concern over the current population growth in Brandon and the city's ability to provide the necessary services to an expanding population and to regulate the growth. This is apparent in environmental questions 1.a. and 1.b. where expansion capacity was a highly rated concern. This was reinforced in the written comments section where "concern over growth" was the most recorded comment. Additionally, the last question in the Planning & Zoning survey (#15, page 18), which asked respondents to list goals for the city over the next ten years, the goal receiving the greatest number of write-in responses was to control growth. Growth in Brandon is illustrated in question #7 of the Planning & Zoning survey (page 15): 30% of the respondents have lived in Brandon four years or less, 55% for less than 10 years.

### A. Environmental Survey

Of the listed water issues, water hardness was rated as the greatest problem followed by water color/clarity. Some respondents indicated that these issues were extremely bothersome, while others felt that all was OK. Unfortunately, survey responses were not correlated with location. This would have been helpful to determine if certain sections of the city were more prone to these water problems than other sections.

The wastewater issues of greatest concern were drainage and expansion capacity. Flooding was also considered a problem in certain areas.

Most respondents have residential garbage pick-up (96.7%) and many recycle (84.8%). There does seem to be some confusion over how to recycle. Brandon has several different, private garbage haulers and each appears to have different rules regarding recycling. The recycling industry itself is constantly changing. A community newsletter, or similar educational/update method detailing the specifics of recycling options in Brandon would be helpful. Many respondents asked for additional drop off locations within the city.

Most Brandon respondents said they were familiar with radon (79.3%) and most (85.8%) felt it was not a problem in Brandon. However, only 13.0% had actually had their homes tested. Sixty-six percent were interested in a home test and over half would pay \$5-\$10 for such a test.

## B. Community Center Survey

Respondents were in favor of a community center by almost two to one. Meeting rooms, community recreation, a kitchen and a library topped the list of facilities to be included. About half the respondents would support a bond issue for financing and almost 60% chose the least amount (\$1.5 million).

The preferred location for a community center was east of the middle school. The most selected activities to be held at such a center were a library and a walking track, followed by a health club and youth recreation. Almost 80% felt that rental fees should be charged for non-civic uses of the center.

## C. Planning & Zoning Survey

About twice as many respondents indicated that they work outside of Brandon as work within the city. Occupations listed are varied with a large number of professional/technical employees. Respondents almost exclusively commute in single passenger vehicles.

The most listed route to work is Rice St. - which was listed almost two to one over I-90. Over 50% of respondents gave commute distances of less than 10 miles (one way). Peak "rush hour" for going to work ranged from about 6 am to 8 am.

Many respondents are fairly new to Brandon, with 30% having lived in Brandon four years or less and over 50% having lived in Brandon ten years or less.

Many respondents felt the current outdoor recreation facilities were OK and no additional ones were needed. The most listed additional facilities are walking/bike paths and playgrounds/parks.

Question #9, asking if more playground equipment was needed at the schools or in the parks was generally answered yes (51.7%) or no (48.3%) without distinction made between the two locations.

The road improvement most requested was for Sioux Boulevard. Many respondents mentioned Sioux and Holly together - possibly referring to the intersection of the two roads, although this could not be determined. Respondents were slightly in favor (53.3%) of a government bond for financing reconstruction of Sioux and Holly Boulevards.

Respondents were asked to rank four possible public improvements (water quality, Holly & Sioux reconstruction, parks improvements, and building a community center) in order of importance. Calculation of mean rankings revealed a tie between water quality and Sioux & Holly reconstruction for most important. The community center was second and park improvements last. The most mentioned write-in improvement is sidewalks.

The addition of retail business to Brandon was favored over service-type business (259 to 210), and both were preferred over

industrial (80) or heavy industrial (17). The most requested retail businesses are a discount/department store (57.5%) and a clothing/shoe store (10.8%). The most requested service-type businesses are restaurants (not fast food 21%; fast food 12.4%) and a motel/hotel (19.5%). Respondents indicated they were very willing to support such new businesses (98.9%).

The final Planning & Zoning question asked respondents to list four major goals for Brandon over the next ten years. These responses were not ranked but all treated equally when tabulated. The most listed goal expresses concerns over growth, the necessity of enforcing the current zoning regulations and the writing of a new comprehensive plan (12.6%). The second most mentioned goal is street improvements and better snow removal (11.3%) followed by attracting businesses and improving the business district (10.6%). Other frequently listed goals include dealing with water/sewer/drainage problems (8.6%) and decreasing/keeping taxes low (8.4%).

### VIII. ACKNOWLEDGMENTS

Responses given to survey questions will be used in formulating future plans and directions for the City of Brandon. MAP, the Planning & Zoning Commission and the Community Center Committee wish to thank all who participated in this survey.

Special thanks to Coast to Coast Hardware, First National Bank, Home Federal Savings and Loan, and Jubilee Food Store for serving as survey collection sites; and to SECOG for providing population estimates and helping with survey questions.

Special thanks also to Dennis Olson and Janell Boor of Brandon City Hall - this survey could not have happened without their help and cooperation.

RE: Amendment of Section 73.202(b)  
Table of Allotments, FM Broadcast Stations  
(Sibley, Iowa and Brandon, South Dakota:  
MM Docket No. 96-66

Dear Sirs:

I am writing to express my complete support of the proposal of 21st Century Radio Ventures to bring a new FM radio station to Brandon, South Dakota. In my opinion, which I believe is shared by both Brandon and Sioux Falls, Brandon is a separate community, independent in virtually every way from Sioux Falls.

Our growing city of over 4,600 residents is located well outside of the city limits of Sioux Falls and is separated from Sioux Falls by farms and rural open spaces. We have our own elected mayor and council. We have our own city financed police department and the Brandon Volunteer Fire Department supplies emergency fire and medical services to our city. Brandon has a medical clinic with a full time M.D. staff, two dental clinics and two chiropractic offices.

Our city provides water and sewer services to the residents of Brandon and it maintains a branch of the Minnehaha Country Public Library. We own and operate an eighteen hole golf course. The Brandon Chamber of Commerce has over ninety active members that provide all types of services to the community.

In short, Brandon is a great place to live, work and play. We look forward to the establishment of our first local radio station.

Sincerely,

  
Dennis A. Kleinvachter  
Mayor
